Integrating Children Short Break Activities Enquiry Form

Short Break activities

Integrating Children provides short break activities as part of County Durham's county wide services. As such there are some factors which will prevent your child from taking part in activities organised by Integrating Children. These are –

- If your child is younger than 5 years or older than 18 years
- If your child normally lives outside of the old county districts of Durham City and Chester le Street. (If this is the case please refer to the provider in your area)
- If your child does not have a disability

Also your child will be placed lower on the waiting list if they receive overnight respite or short break activities provided by another organisation. This is because the County wishes short break activities to be spread as widely as possible.
